

**Cleaning Standard – Current vs Proposed**  
**Development: James Square – Caledonian Crescent**  
**Reporting Date: 21/01/2026**  
**Prepared by: Anthony Porter (Cleaning Supervisor Myreside Management)**

**Purpose**

This one-page summary has been prepared to support owners in their consideration of appointing Myreside Management as Property Factor going forward.

It demonstrates:

The current level and standard of routine cleaning; and the enhanced standard Myreside Management would be looking to achieve, should owners select Myreside as their Factor and instruct this level of service.

**Cleaning Standard**

Routine cleaning maintains communal areas to a reasonable and hygienic standard. However, historic staining, ingrained dirt, or worn finishes may limit presentation. The proposed enhanced standard represents Myreside's professional view of what could be achieved with additional time and targeted attention.

**Visual Benchmarking: Current vs Proposed Standard**

The photographs below are provided to clearly illustrate the difference between:

Before – Current Cleaning Standard

After – Proposed Myreside Standard. The level Myreside Management would be looking to achieve if appointed as Factor and instructed to deliver an enhanced cleaning approach.

**Sauna Area**

Before – Current Standard:

After – Proposed Standard:

**Changing room**

Before – Current Standard:

After – Proposed Standard:

**Pool side**

Before – Current Standard:

After – Proposed Standard:

**Main Entrance Area**

Before – Current Standard:

After – Proposed Standard:

**Key Notes**

Achieving the proposed standard would require an initial deep clean to address ingrained dirt, historic staining, and areas beyond the scope of routine cleaning.

Following completion of the initial deep clean, the development would return to a routine cleaning schedule, with cleaning maintained to the enhanced standard on an ongoing basis.
